DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore in re claims 1, 3-6, 8, 11, 12, the "floodlights" & "180 degrees" (only 90 degrees shown & described in the Detailed Description of Drawings) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1 & 2 are objected to because of the following informalities: "said/the pair of" should be inserted in front of "conveyors" in order to avoid confusion between the pallet conveyor & the pair of conveyors. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 2-8, and new claims 9-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Huston (2699877, cited by applicant).

Huston also discloses elements admitted as prior art (pair of conveyors, a means for operational support and attachment ...), and the improvement comprising:

In re claims 3 & 9:

Pair of conveyors (80 & 82);

A displaceable arm for each conveyor (ref 21);

Sufficient length to span multiple rows (col. 4, ln 11);

Arms capable of displacing conveyor over the vehicle (col. 3, ln 68);

In re claim 9, it is noted that a "conveyor belt system" is called for, therefore the system of the prior art is capable of being a conveyor belt system or any other conveying means system;

In re claim 4:

A hydraulic leveling device (lifted/lowered, thus leveled by some suitable crank, such as hydraulic, col. 3, ln 74-75);

Art Unit: 3671

In re claims 7 & 9:

A pallet conveyor (51, as shown fig 8 parallel to the pair of conveyors);

Sets of tires (12);

In re claim 10:

A workstation & foldable platform (col. 4, ln 47-51).

Art Unit: 3671

Allowable Subject Matter

5. Claims 1-2 are allowed.

Response to Arguments

6. Applicant's arguments filed 3/28/2005 have been fully considered but they are not persuasive.

Applicant arguments appear to rely on that the "180 degree displacement" is not taught by Huston; however, as noted above this feature is not disclosed and shown in the drawings. Therefore although, the Examiner disagrees with Applicant's argument in relation to the possibility of, as recited "**capable** of displacing... **substantially** 180 degree," however, argument pertaining to this subject matter is not germane.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
